

A Text Book of
Biophysics

Dr. Ashish Verma is currently working as a Professor in the Department of Physics, Dr. Harisingh Gour Vishwavidyalaya (A Central University), Sagar (M.P.) India. He holds esteemed and responsible additional positions in the university including the Dean of School of Mathematical and Physical Sciences, Director in-charge of the Institute of Engineering and Technology, and Head of Department of Computer Science and Applications. He has qualified B.Sc. in Physics, Chemistry and Mathematics, M.Sc. in Physics and Ph.D. in the field of Luminescence. He has been serving as a professor in central university for nine years as of now. His research area and specialization include Luminescence study, Embedded Systems and VLSI designs. He has been awarded with Bharat Ratna Rajeev Krishna Goli Medal award. He was awarded scholarship from S.P. R&D, Delhi. He has got 08 patents published under the Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India. He has got over 100 research papers published in National, International journals and conference proceedings, along with two this, he has got five books and ten patents published. He has successfully completed two research projects funded by UGC and MPCST, respectively. He has attended over 100 national as well as international conferences. He has organized about 10 seminars/webinars in his department and has been a part of 6 workshops. He has guided 16 research scholars who successfully completed their Ph.D. under his supervision. At present, six research scholars are working under him. He has been an active member in various academics as well as non-academic bodies of the institution. He has provided his services as the Proctor of the University, Chairman, council of warden of the University, Chief Security Officer, Assistant Director of Academic Staff College, member of University Sports Committee, member of BOS in the Department of Physics and Electronics as well as the Department of Computer Science and Applications in Dr. Harisingh Gour Vishwavidyalaya, Sagar (M.P.). He has also been an executive member in Anti-corruption Foundation of India and has worked as an assistant director of Human Rights and Crime Control Council, under Govt. of India. He has delivered 11 lectures in various colleges and Universities. He has been a member of committee in 67 fields since 2004. He is a reverent professor, supervisor and colleague in his university. His excellence in teaching and research is acclaimed everywhere and his awards are being cherished by all in his department.

Dr. V. B. Sreedhar is working as assistant professor in the department of physics of RGM College of Engineering and Technology for the last seven years. He completed his BEd. From Sri Krishnadevaraya University, Anantapur, in the year 2000. He received his Master Degree in physics from Sri Venkateswara University, Tirupati, India, in 2002 with the specializations Chemical Physics and Electronics. He has vast research experience in the field of rare earth doped zinc borosilicate glasses. He is the author for 9 SCI international journal articles. He had qualified State Lecturer Eligibility Test conducted by the Andhra Pradesh State i.e. APSET in the year Feb. 2012. In addition to the research experience he has good teaching experience for UG and PG classes. His total teaching experience is 20 years. As a part of teaching he also taught the classes for distance education PG students of Acharya Nagarjuna University study centre at Ramakrishna Degree college (Autonomous) Narsyal. He had also given guest lectures at PSC & KVSC government degree college Narsyal and Rao Degree College Yemmiganoor. He had received best pragmatic teacher in physics award from KITS college of engineering, ramachandrapuram, west Godavari district, Andhra Pradesh and at present he is working for RGM College of Engineering and Technology, Narsyal.

Dr. Deepa Khatik is currently working as an Assistant Professor in the Department of Physics, Government Girls PG College of Excellence, Sagar (M.P.) India. She completed her Ph.D. from Dr. H. S. Gour Central University, Sagar on the topic titled "Theoretical Study on High Temperature Superconductor." Dr. Deepa is a continual learner with experience of around 18 years of teaching and research. She has published more than 14 research papers in national and international journals. She was delivered lectures as a resource person in various National Seminars and conferences organized by eminent institutions of India. As a convener she is known for conducting 6 days workshop on "Electronic Instrumentation" six days faculty development program on "ICT tools" and two days workshop on "Solar Panel Installation" and different national Seminars. She has published her teaching and research skills by taking part in various faculty development programs and workshops. Her area of research interest is material science and non conventional energy sources.

Ms. Niharika Chourasiya is currently working as an Assistant Professor in the Department of Physics, Gyanchandra Shrivastava Government Post Graduate College, Dantoh (M.P.) India. She has qualified the MPSET-2017 exam and MPPSC for Assistant Professor exam in Physics. She pursued her Post Graduation from Department of Physics, Dr. Hari Singh Gour University Sagar (MP). Her area of research interest is Material Science. She has attended more than 15 conferences/webinars and presented her research work. She has published four research papers in Scopus indexed journals. She has also delivered expert lectures as a resource person in a national webinar organized by an eminent institution of India. She has been a part of organizing committee of many National Webinars, Seminar, Workshops and International Seminar. She has been an active member in various non-academic committees of the institution. She upgrades and updates her teaching and research skills by taking part in various FDPs, workshops, and induction programs, professional development courses conducted by various State and Central Institutes. She is always progressive and positive in every aspect of life.
