<i>Index</i>	<i>319</i>

About the Book

Aquaculture documents the present status, developments and future possibilities in different segments of Indian fishery. While major fisheries in terms of resources including inland fisheries have been presented, emphasis has also been laid on different culture systems in marine, brackish and freshwater environments. This book helps B.Sc. and M.Sc. students in identifying aquaculture and its scope in India. It discusses about different economically important fishes and other culturable fauna. The book analyses the process of aquaculture and thus helps the practical implementation that results in self-employment.

About the Author

Dr. Ashwani Kumar Dubey is serving from 1997 in Department of Higher Education, Govt. of Madhya Pradesh and currently working as Guest Faculty of Zoology at Government College Piprai, District Ashoknagar, Madhya Pradesh. Also serving as Editor-in-Chief, International Journal of Global Science Research. Executive Director, Environment and Social Welfare Society, Khajuraho, India.

His research fields are Biochemistry, Free Radical Biology, Toxicology and Stress Monitoring, Aquaculture Pathology, Water Quality Assurance, Biodiversity, Environmental Impact Assessment and Bio-Resources Conservation.

He has published more than three dozen Research papers in International, National peer-reviewed journals, and academic and scientific articles in standard magazine. Scientific talk broadcasted by All India Radio. Fourteen book published by reputed publisher from India & Germany.

Dr. Ashwani is widely regarded as one of India's foremost experts on Zoology & Environmental sciences. He awarded many prestigious awards by National and International institution.
